switches from Stopwatch-Countdown-Clock Mode

Enhanced Rally Digital Chronometer

The RACE TIME 2 digital chronometer (Code: AIT-RT2) is a highly technological and flexible product, ideal for usage in rally race.

There are 2 stopwatch mode :

- *Normal* : Timer with accuracy : 0.01 sec and
Max time : 99 Hours

- *Countdown* : Timer with presettable starting time
or you can display the CLOCK time (the clock runs with a separate internal 3 Volt lithium battery).

It has a 6 digit display with intensity control (High intensity for an excellent visibility on daylight and Low intensity for night vision).

The internal non-volatile memory can hold up to 250 times which can be displayed or, by means of a connection cable, downloaded to a printer or a PC.

Technical specifications

Weight :	100 g.
Dimensions :	100 x 65 x 24 mm.
Power source :	9 - 14 Vdc (from external battery) 9 Volt (from internal battery)
Clock:	3Volt Cr1220 battery
Memory :	250 times
Connection :	Serial RS-232
Accuracy :	0,01 sec.
Max time :	1 hour
